

VISTA SCHOLARS 2008

UNIVERSITY of
NORTHERN COLORADO

The Aurora Public Schools and the University of Northern Colorado are proud to announce the VISTA Scholars program. Beginning with the graduating class of 2008, graduates of Aurora Public Schools interested in committing to teaching special education in Aurora Public Schools may be awarded a scholarship to attend the University of Northern Colorado at Denver. VISTA Scholars will be awarded a scholarship of up to \$5,000 per academic year, to pay tuition, books and fees. In exchange for the scholarship, VISTA Scholars will commit to completing a special education generalist program, obtaining the appropriate licensing from the Colorado Department of Education and teaching special education in Aurora Public Schools for five years. VISTA Scholars will attend classes at the University of Northern Colorado's Denver Campus, located at Lowry.

For additional information or to apply, please visit the VISTA Scholars website:

UNIVERSITY OF NORTHERN COLORADO
CENTER FOR URBAN EDUCATION
SPECIAL EDUCATION B.A. (GENERALIST LICENSURE)

What is the University of Northern Colorado Center for Urban Education Special Education Program?

- The program provides students with a Bachelor's degree and Colorado teacher licensure.
- Students earn a degree that qualifies them to teach special education to students in Kindergarten through 12th grade.
- It's a place where traditional scholarship meets a rich real-world experience in a metropolitan-area school classroom – a place where students find a home for learning and growing as teaching professionals.
- That happens because Center students work with students with a variety of special needs and their teachers, developing instructional skills on a daily basis.

What makes the Center different from other teacher prep programs?

- It's a work-and-learn program. You have the opportunity to work in a classroom along side expert special education teachers to gain valuable experience working with students with special needs. In addition, you will still have time to take the classes you need to earn your degree in the afternoons.

Is the Center for Urban Education for me?

- YES! If you're ready to take on the challenge of earning a Bachelor of Arts degree and becoming an effective special education teacher – one who will do everything in your power for the good of the students who will be entrusted to you.
- It will be your commitment and our program that will make this happen.
